WORK EXPERIENCE

TOCA • Chicago, IL, USA

Human-Centered Design Intern • 05/2023 - 08/2023

- Conducted 6 in-person storytelling sessions, used Ethnoken to record and analyze findings, and delineated 2 behavioral types.
- Collaborated with senior designers to translate user feedback into design specifications and used Figma to iteratively design 10 high-fidelity interactive prototypes.
- Developed a secure web application in one month using technologies including Docker, TypeScript, HTML/CSS/JS, MySQL.

Illinois Institute Of Technology • Chicago, IL, USA

Technical Writer • 04/2023 - 05/2024

- Collaborated with subject-matter experts on internal and client-facing documentation, resulting in a 20% decrease in ticket escalation to senior staff.
- Facilitated the transition from Google to Microsoft workspace by rewriting and updating 400 knowledge base articles

Supplemental Instructor • 09/2022 - 05/2024

- Taught Java and HCI fundamentals to 200 graduate and undergraduate students enrolled in CS201: object-oriented programming (Fall 2022) and ITMD362: human-computer interaction (Spring 2024).

Freelance • Chicago

Game Designer • 04/2022 - Present

- Used Figma to design 10 prototypes and realized the physical board for the tabletop game "Munchy Meow", ideated by Don Bowers.
- Re-designed the packaging for a revised version of the game "Golden Mart", ideated by Carly Kocurek.

SoReMo • Chicago, IL, USA

Research Fellow • 01/2023 - 05/2023

- Received \$3000 fellowship for a proposal titled "An Analysis of the Impact of Social Media and Search Engines on Decision-Making"
- Conducted qualitative and quantitative research in information science, tech policy, interaction design, user psychology, and ethics
